Objective

Aspiring Java Developer with a strong foundation in Core Java, Object-Oriented Programming, Data Structures, SQL, JDBC, Spring Core, and Spring JDBC, with experience in full-stack application development using Java and React.js. Seeking an opportunity to apply programming and backend development skills while growing expertise in enterprise Java development.

Education

Full Stack Java Development **Feb 2026 – Present**
Naresh IT, Hyderabad

Shri Ramdeobaba College of Engineering and Management **Dec 2021 – May 2025**
B.Tech in Electronics Engineering CGPA: 8.17

Technical Skills

- **Programming:** Java
- **Core Java:** OOP, Data Structures, Exception Handling, Collections, Multithreading
- **Java Web:** JDBC, Servlets, JSP
- **Backend:** Spring Core, Spring JDBC
- **Frontend:** HTML5, CSS3, JavaScript, React.js, Tailwind CSS
- **Database:** MySQL
- **Tools:** Eclipse IDE, Git, GitHub, VS Code

Internship

Infosys Springboard 7.0 – Virtual Internship **2026 – Present**
Selected — Project-Based Internship

- Selected for the **Infosys Springboard 7.0 Virtual Internship Program** and currently working on a project as part of the internship.
- Collaborating on project development and applying software development concepts to build and implement project requirements.

Projects

OneShop – Multivendor E-Commerce Platform | GitHub

- Developed a full-stack multivendor e-commerce application using **Java, Spring Boot, React.js, and MySQL** for customer, seller, and admin operations.
- Implemented REST APIs for **user authentication, product management, seller operations, cart, and order management**.
- Implemented **role-based authentication and authorization using Spring Security and JWT** and used Spring Data JPA/Hibernate for database persistence.
- **Tech Stack:** Java, Spring Boot, Spring Security, JWT, Spring Data JPA, Hibernate, MySQL, React.js

Nutrifit | GitHub

- Developed a responsive web application providing nutritional analysis of food items using an external Nutrition API.
- Integrated external APIs for nutritional information and health-related news and built the interface using React.js and Tailwind CSS.
- **Tech Stack:** React.js, Tailwind CSS, REST APIs

Certifications

- Databases for Developers: Foundations – Oracle Dev Gym
- SQL – HackerRank

Achievements

- **Design Patent Granted** – Automated Microfluidic System for Flow and Pressure Control
